

Dr. Joseph J. Massad, D.D.S.

Dr. Joseph Massad practices in Tulsa as a general practitioner with a focus on removable complete prosthodontics and conducts extensive national and international continuing education programs for the dental profession. Dr. Massad was a keynote speaker at the International Symposium for Edentulous Patients in Beirut, Lebanon in 1998 where 20 countries were represented, including from Europe and the Middle East. He was the keynote speaker for the 3rd Triennial Commonwealth Dental Association in New Delhi, India in January 2000 as well as the keynote speaker at the Lebanese Dental Association Meeting in September 2000. Dr. Massad presented a week-long hands-on course at the University of Coimbra, Portugal where he taught 14 of the top Masters and PhD students in the Prosthodontic field in Portugal. In May 2007, Dr. Massad was a featured speaker for the Clinical Innovations Congress in London as well as a speaker for the Romanian Society for Esthetic Dentistry in Romania. Dr. Massad presented a full day implant over-denture lecture at the Journées Dentaires De Nice, Nice France in June 2007.

Dr. Massad graduated from Loyola University of Chicago and is presently the Director of Removable Prosthodontics at the Scottsdale Center for Dentistry in Arizona. Dr. Massad was an associate professor from 1992-2003 at the Pankey Institute in Florida and holds faculty positions at Tufts University School of Dental Medicine in Boston. Dr. Massad also served as a clinical associate professor from 1982 to 1987 at the Michael Cardone, Sr. School of Dentistry in Oklahoma. As of June 2000, he is serving as adjunct associate clinical professor in the Department of Prosthodontics at the University of Texas Health Science Center at San Antonio Dental School. Dr. Massad is an adjunct professor of forensic dentistry for the Oklahoma State University College of Osteopathic Medicine. Dr. Massad has been extremely active in numerous dental organizations such as his role as Chief Dental Examiner for several years for the State Board of Dentistry in Oklahoma. Dr. Massad is a National Sponsor for the Academy of General Dentistry, a program approved for continuing education, PACE, which is FAGD/MAGD approved.

He has published a variety of more than 40 professional articles in the Journal of Prosthetic Dentistry, International Journal of Periodontal and Restorative Dentistry, Compendium of Continuing Dental Education, The Independent Journal, England, The Pankey Gram, Bulletin of American Association of Dental Examiners, Journal of the Oklahoma Dental Association, Dentistry Today, Dental Economics, and others.

Dr. Massad has been a featured speaker at the American Prosthodontic Society as well as the American Dental Association, Canadian Dental Association, Federation Dentaire International and many other prestigious dental groups. He has given numerous workshops and presentations to various well-known national and international organizations as well as teaching institutions. Dr. Massad participated in a research grant at the University of Oklahoma School of Dentistry on "centric relation studies" funded by Dentsply International and also participated in a research grant at the University of Texas Health Science Center, San Antonio, on the "effectiveness of wearing denture adhesive on well-fitting dentures" funded by Proctor & Gamble. He is conducting another research project funded by Dentsply for development of a new and improved denture base. He is a consultant for many dental manufacturing companies trying to improve dental delivery to patients. Dr. Massad served as chief investigator for a major dental research project sponsored by Glaxo Smith Kline between November 2005 and October 2006. He is also an approved IRB dentist.
