FIXED FULL-ARCH IMPLANT SOLUTIONS FOR THE EDENTULOUS PATIENT

COURSE DESCRIPTION:

This full-day course is designed to simplify the treatment planning and protocol of the fixed full-arch prosthesis. The Course will cover a step-by-step procedure for the new LOCATOR F-Tx® Fixed Attachment System. Treatment Workshops and patient demonstrations will round out a full-day with a rewarding educational experience. The topics of provisionalization, final prosthesis design and material selection, prosthesis removal, and maintenance will be covered.

PRESENTER:

Joseph J. Massad, DDS

Dr. Massad is in private practice in Tulsa, Oklahoma as a General Dentist since July 1st 1975 directly after graduating from Loyola University School of Dentistry Chicago, Illinois. He was a member of the Oklahoma Board of Dentistry where he rose to become one of the youngest board presidents in the board's history and co-authored the Oklahoma Code of Ethics document. He is a Fellow of both the American and the International College of Dentists, a Regent/Fellow of the International Academy for Dental Facial Esthetics, a member of the American Society for Dental Aesthetics and is an honorary member of the American College of Prosthodontics and a life member of the American Dental Association. He has authored numerous publications in the Journal of Prosthetic Dentistry.

LEARNING OBJECTIVES:

- Understand the pros and cons of removable vs. fixed implant restorations
- Identify the indications and limitations of the fixed attachment system
- Understand the protocol and procedure for immediate load cases, conversion from removable to fixed restorations and options for rescuing failed screw-retained cases
- Learn how to determine the quantity and position of implants for the best outcome
- Review of impression taking: direct and indirect techniques
- Maintenance and follow-up guidelines
