Dear Joe,

I just want to take a minute and express my gratitude for your permitting me to attend your wonderful course the weekend before last. It was a great event, the first time in many a year that I've left with a positive attitude toward some future technology to make the delivery of my dentistry more beneficial to my patients. I think it will be the first time in thirty plus years that I haven't had to lie about a denture. As I expressed to you on the last day, the best we can hope for is some function. I guess I've been pretty satisfied many times in my career with the cosmetics or the looks, but the function has always been sorry. Of course, I've always told my patients that a denture is just a "peg leg" in the mouth.

Also, let me thank you, Joe, for including my friend, Willie, in coming to the course. It was a pleasure as Willie had never attended a dental meeting and was fascinated by the in-depth interest that all the guys and gals there had in what you were saying and in what you had to offer to us. It was great that you shared meals with us at the hotel and that you suggested our visiting the Celebrity Club on Friday night. We met Mike, and he was a gracious gentleman who took care of us, providing us with an unprecedented dinner with great service, and the lobster was as delicious as you said it would be.

Again, Joe, thanks for sharing your knowledge with the dental profession all these years. I hope that I can attend the second class within the next year or so. I have to get this new dental building built and get back into full gear. That's the next step in my career. Tell all your staff that they were extremely gracious and wonderful hosts and hostesses, and we look forward to seeing them in the near future. If you ever get to Alabama, give me a call. I'll put you up. I have a caboose at my home, and you can spend the night in the caboose. There have been some great dentists in there before, and I'd like to add Joe Massad's name to the group. Thanks again. I look forward to hearing from you.

Sincerely,

Mike Mahan
